The Margaret Rose Kennedy Foundation is a not-for-profit organization dedicated to providing need based financial aid to those with cancer related medical expenses not covered by health insurance. We are incorporated in New York and recognized by the IRS as a 501(c)3 not-for-profit organization providing assistance to qualified individuals in financial need.

The mission of the Margaret Rose Kennedy Foundation is to provide need based financial aid to those with cancer related medical expenses not covered by health insurance. Typically the lack of health insurance coverage involves a gap in coverage. For example, most medical plans cover hospitalization, chemo, oncologist costs, etc. However, quite often medical insurance does not cover the cost of searching for a suitable donor in cases where stem cells or organs are required for a transplant.

We primarily raise funds via special events (such as our annual golf outing) and individual contributions via memorial and special occasion cards which are available by request and on our web site. The cards are a nice way to remember someone in a special way. As a 501(c)3 we are eligible for corporate matching contributions.

In our first four years of existence we have supported eight grantees with financial aid and billing assistance. The preferred means to apply for assistance is via a referral through a licensed Social Worker. To receive this financial aid, the recipient is required to demonstrate financial need in accordance with MRK Foundation policy and IRS regulations.

Please support our mission with your attendance at our event at Swan Lake Golf Club on Friday August 6, 2010. However, if you can't attend, contributing to the success of the event by purchasing one of the available sponsorships or by making a contribution would be truly appreciated.

Please fill out attached flyer and send your contribution to the above address.

Sincerely,

Margaret Rose Kennedy Foundation

P.S. We need items for our Golf outing Silent Auction.
